

Selecting a Primary Care Physician with your NexusACO™ plan.

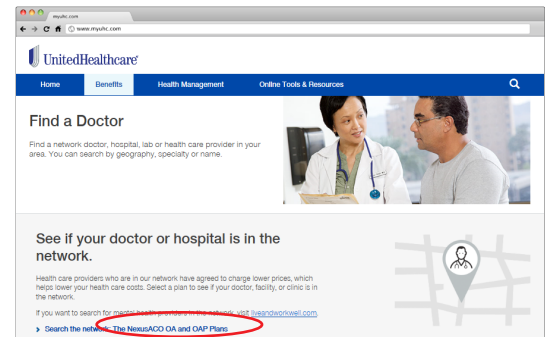

Your NexusACO plan requires you to choose a primary care physician, or PCP. In addition to offering preventive services, PCPs help guide your care so you can avoid duplicate tests and services, helping save you time and money.

When you enroll you will be asked to select a PCP for each covered family member. To get started, visit welcometouhc.com/nexus2.

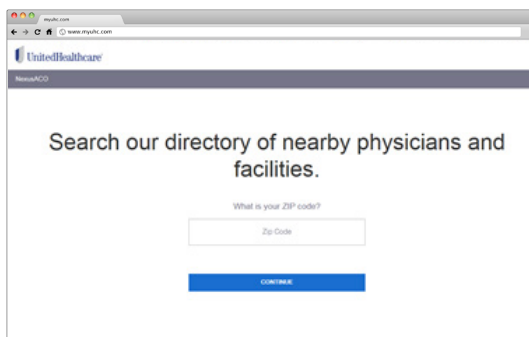

- 1 Choose from Primary or Specialty care, and then select the type of physician.

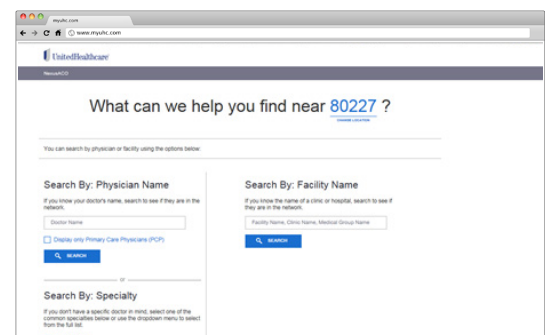

- 2 Select the “Search the network” link.

- 3 Type in your ZIP code and click “Continue.”

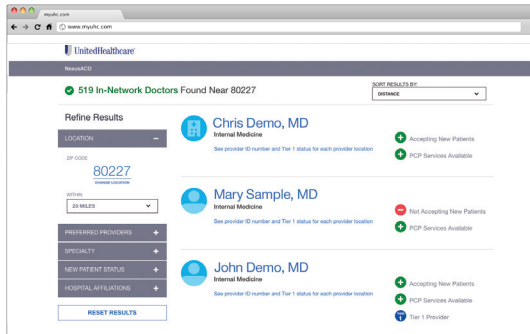

- 4 Search for a PCP by name or specialty (general practice, family practice, pediatrician or internal medicine). If you search by specialty, select the specialty from the dropdown and check the “Display only Primary Care Physicians” checkbox.

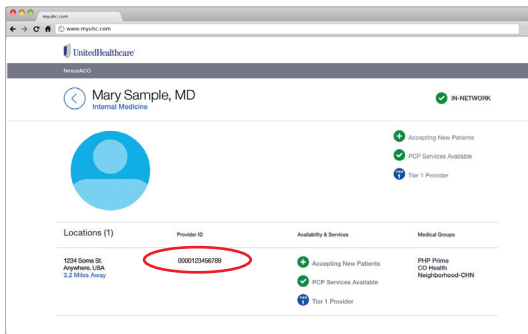

5

A list of PCPs in your ZIP code area will be displayed. Choose a Tier 1 PCP for the highest level of coverage.

6

Click on the doctor's name for additional information including address, provider ID and whether or not they are accepting new patients. You will need the physician's name, address and provider ID when you enroll.

TIER 1

Look for the Tier 1 network symbol.

Where you go for care can make a difference in what you pay. Tier 1 providers are doctors, hospitals and other health care providers who may offer you the greatest value for your health care benefits. Look for the “blue dot” Tier 1 symbol when searching the network on welcometouhc.com/nexus2.

Important: Choosing a Tier 1 PCP may offer you the greatest value for your health care benefits. If you have chosen a PCP who does not have the Tier 1 symbol, you may pay more.

Call us with any questions.

The UnitedHealth Premium® designation program is intended as a resource for informational purposes only. Designations are displayed in UnitedHealthcare online physician directories at myuhc.com®. You should always visit myuhc.com for the most current information. Premium designations are a guide to choosing a physician and may be used as one of many factors you consider when choosing a physician. If you already have a physician, you may also wish to confer with him or her for advice on selecting other physicians. Physician evaluations have a risk of error and should not be the sole basis for selecting a physician. Please visit myuhc.com for detailed program information and methodologies. Only individual physicians that meet UnitedHealth Premium designation criteria, or physicians in designated specialties who are part of medical groups that meet UnitedHealth Premium criteria for group practices and who have sufficient claims data for analysis, may be designated. All physicians that contract with UnitedHealthcare have met credentialing requirements. Regardless of designation, plan enrollees have access to physicians in the UnitedHealthcare network as described in their benefit plan. Specialties for which there are no quality guidelines currently established in the program are excluded from evaluation and are noted as such. Insurance coverage provided by or through UnitedHealthcare Insurance Company or its affiliates. Administrative services provided by United HealthCare Services, Inc. or their affiliates.
