

Campus Climate Surveys

Results and Analysis

Lamar Consolidated Independent School District
School Year: 2020-2021

About the Study

Positive school climate is defined as the shared beliefs, values, and attitudes that shape interactions between students, teachers, and administrators and set the parameters of acceptable behavior and norms for a school. It is an essential component of successful and effective schools.

The Lamar Consolidated Independent School District (CISD) Campus Climate Survey asked parents, campus-based staff members, and students in grades 6-12 for feedback on school climate/quality. This survey was open from Nov. 30 to Dec. 20, 2020.

The survey addressed the following topics:

- Academic Preparation
- Student Support
- School Leadership
- Parent Engagement
- Safety
- School Operations
- Faculty Relations and Support
- COVID-19 Pandemic Response
- Fall 2020 Educational Experience

Email invitations with unique survey links were sent to parents and campus-based staff members. Reminders were sent Dec. 8, 11, 15, and 19. Parents could also participate via a public link on the district's website. Parents with children attending more than one district school could take the survey for each school. The parent survey was translated into Spanish. Students used their student IDs to access the survey during school.

This survey was administered during the COVID-19 pandemic.

Understanding the Results

This report summarizes survey results and breaks them down by participant group and school level (elementary, middle, junior high, and high school). Results are compared with those from 2019-2020 and 2017-2018. The survey was not administered during the 2018-2019 school year.

Results do not reflect random sampling; therefore, they should not be generalized to all Lamar CISD parents, campus-based staff members, and students in grades 6-12. Rather, results reflect only the perceptions and opinions of survey participants.

Findings for each item in the report exclude participants who did not answer. In charts and graphs, data labels less than 5 percent are not shown. Percentages may not total 100 due to rounding.

Executive Summary

- A majority of participants gave the overall quality of their school an A or B grade — 83% of parents (a 2 percentage-point decrease from 2019-2020), 81% of campus-based staff members (unchanged from last school year), and 73% of students (a 2 percentage-point increase).
- Participating campus-based staff members had higher overall agreement (combined Strongly Agree or Agree responses for all items within a dimension) for all dimensions than participating parents and students.
- The greatest differences in agreement were between participating students and campus-based staff in the Student Support and Academic Preparation dimensions and between participating parents and campus-based staff in the Student Support, School Leadership, and Safety dimensions.
- Within Academic Preparation, 90% of participating campus-based staff members strongly agreed or agreed that they give timely feedback on schoolwork and clearly explain learning standards and expectations. Fewer participating parents strongly agreed or agreed that teachers give timely feedback (78%) and clearly explain learning standards and expectations (83%). There was a 4 percentage-point increase in participating students who strongly agreed or agreed that they were challenged by their schoolwork, from 76% last school year to 80% this year.
- The largest variation in agreement for Student Support was the item, *There is a teacher, counselor, or other staff member to whom a student can go to for help with a personal problem*. Participating campus-based staff members had higher agreement (97%) than participating parents (76%) and students (61%).
- Participating parents had higher agreement than participating students for all Teacher Support and Self-management items. For example, 73% of parents said their child handles frustrations well compared with 57% of students who said they handle frustrations well.

Executive Summary (Continued)

- 79% of participating parents rated the way LCISD handled the COVID-19 pandemic as Excellent or Good compared with only 67% of participating students.
- The majority of participating parents strongly agreed or agreed that both the district (84%) and their child's school (87%) maintained open lines of communication. Fewer participating campus-based staff members said the district (71%) and their school (79%) maintained open lines of communication.
- Participating parents were more favorable about the virtual learning experience than participating students. For example, 78% of parents strongly agreed or agreed that the overall process for virtual learning was clearly explained compared with 62% of students. Additionally, 87% of parents said they felt comfortable using education technology compared with 77% of students.
- Students who attended school on campus were more engaged than those enrolled in virtual learning. 83% of participating students enrolled in on-campus classes strongly agreed or agreed that they were engaged compared with only 68% of those enrolled in virtual learning.

Participation

A total of 21,467 stakeholders joined the conversation on campus climate and quality in 2020-2021.

Participant Group	School Year	Number of Invitations Delivered (NMax)	Number of Responses (N)	Response Rate (%)	Public-access Link Responses	Total Responses
Parents	2020-2021	32,460	2,783	—	3,374	6,157*
	2019-2020	30,296	3,057	—	2,127	5,184
	2017-2018	17,597	2,278	—	3,029	5,307
Campus-based Staff	2020-2021	3,389	2,728	81%	—	2,728
	2019-2020	3,175	2,499	77%	—	2,499
	2017-2018	3,411	2,184	64%	—	2,184
Students	2020-2021	21,831	12,582	58%	—	12,582
	2019-2020	20,957	14,887	71%	—	14,887
	2017-2018	18,962	13,253	70%	—	13,253

Notes: Participation rates for parents could not be calculated because of the public-access link. This survey was not administered in 2018-2019.

*A total of 274 Spanish surveys were completed by parents.

Participation by School Level

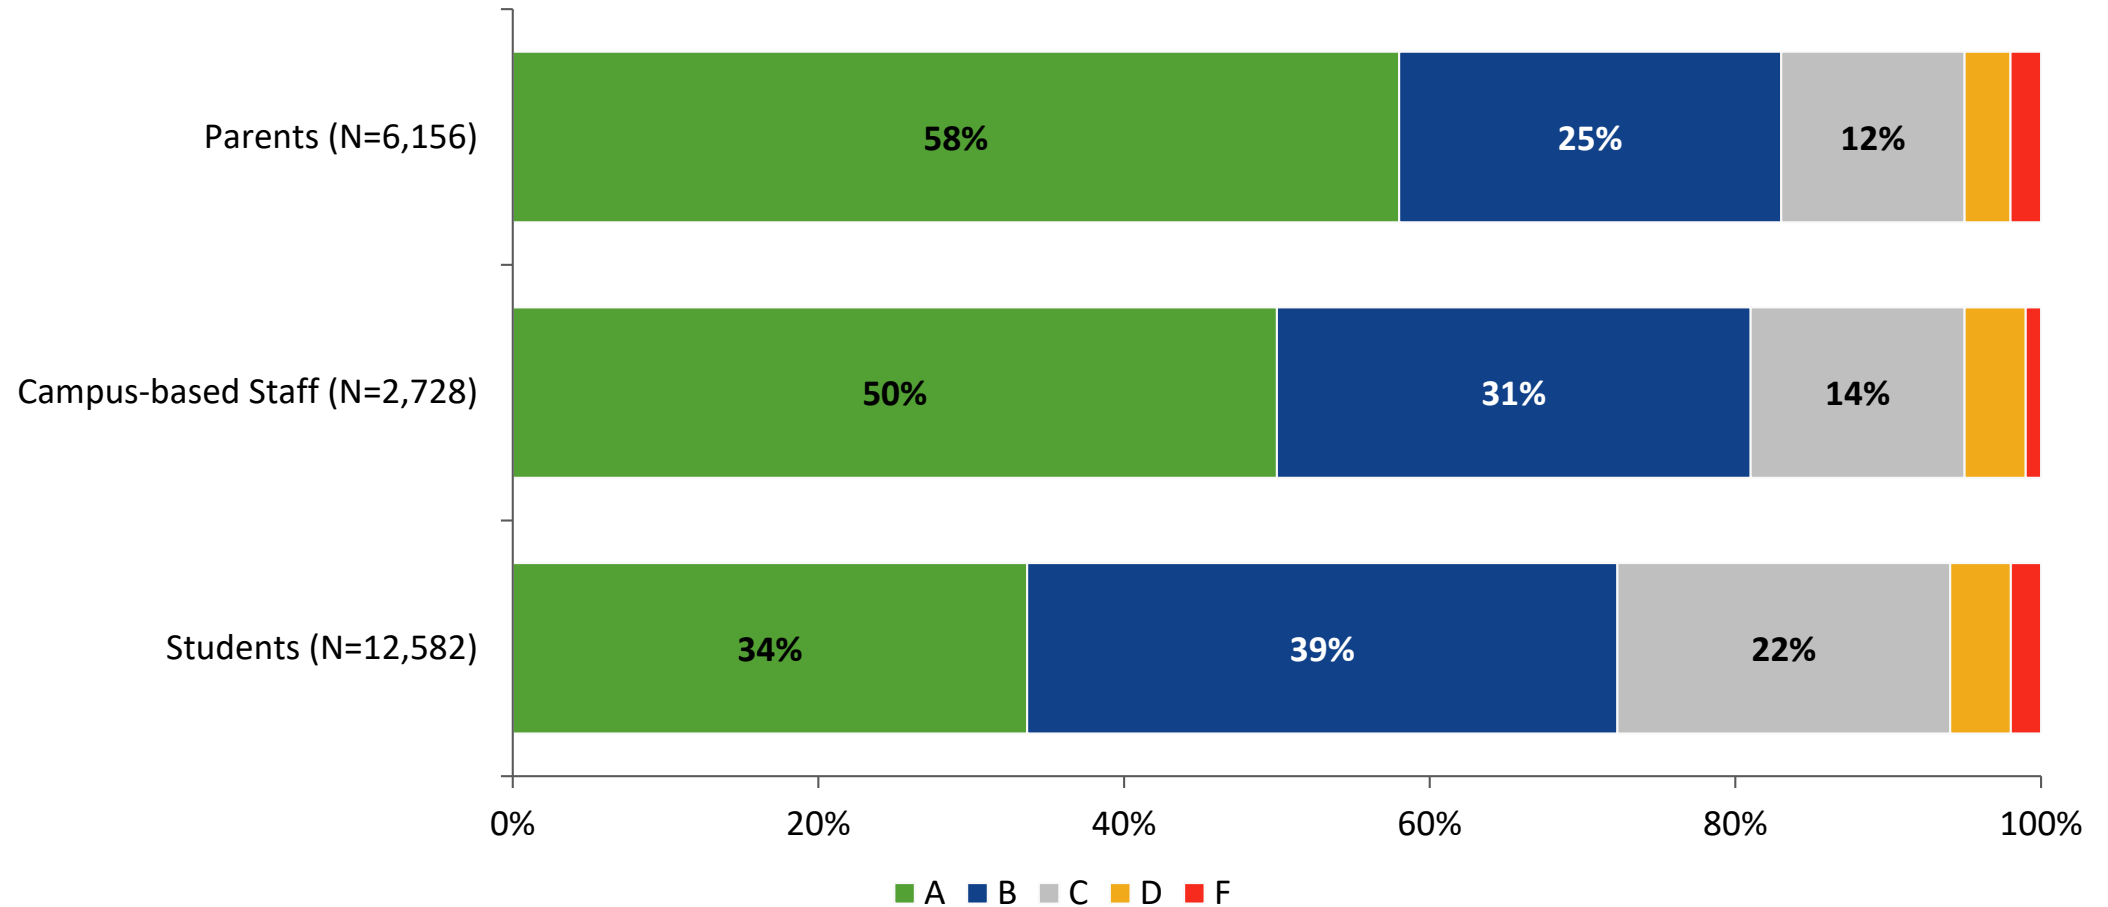

Participant Group	Elementary School Responses		Middle School Responses		Junior High School Responses		High School Responses		Number of Responses
	N	%	N	%	N	%	N	%	Total
Parents	3,514	57%	378	6%	836	14%	1,398	23%	6,126
Campus-based Staff	1,641	62%	174	7%	275	10%	572	21%	2,662
Students	2,343	19%	1,961	16%	3,231	26%	4,995	40%	12,530

Note: The following campuses were excluded from these calculations: Alternative Learning Center, Controlled Intensive Behavior Classroom, Fort Bend County Alternative School, Juvenile Detention Center, Operation Graduation Night School, Seguin Early Childhood Center, and 1621 Place.

Overall Quality
