

# Public Input on Lamar CISD Attendance Boundary Committee Recommendations for Culver, Meyer & Thomas elementary schools

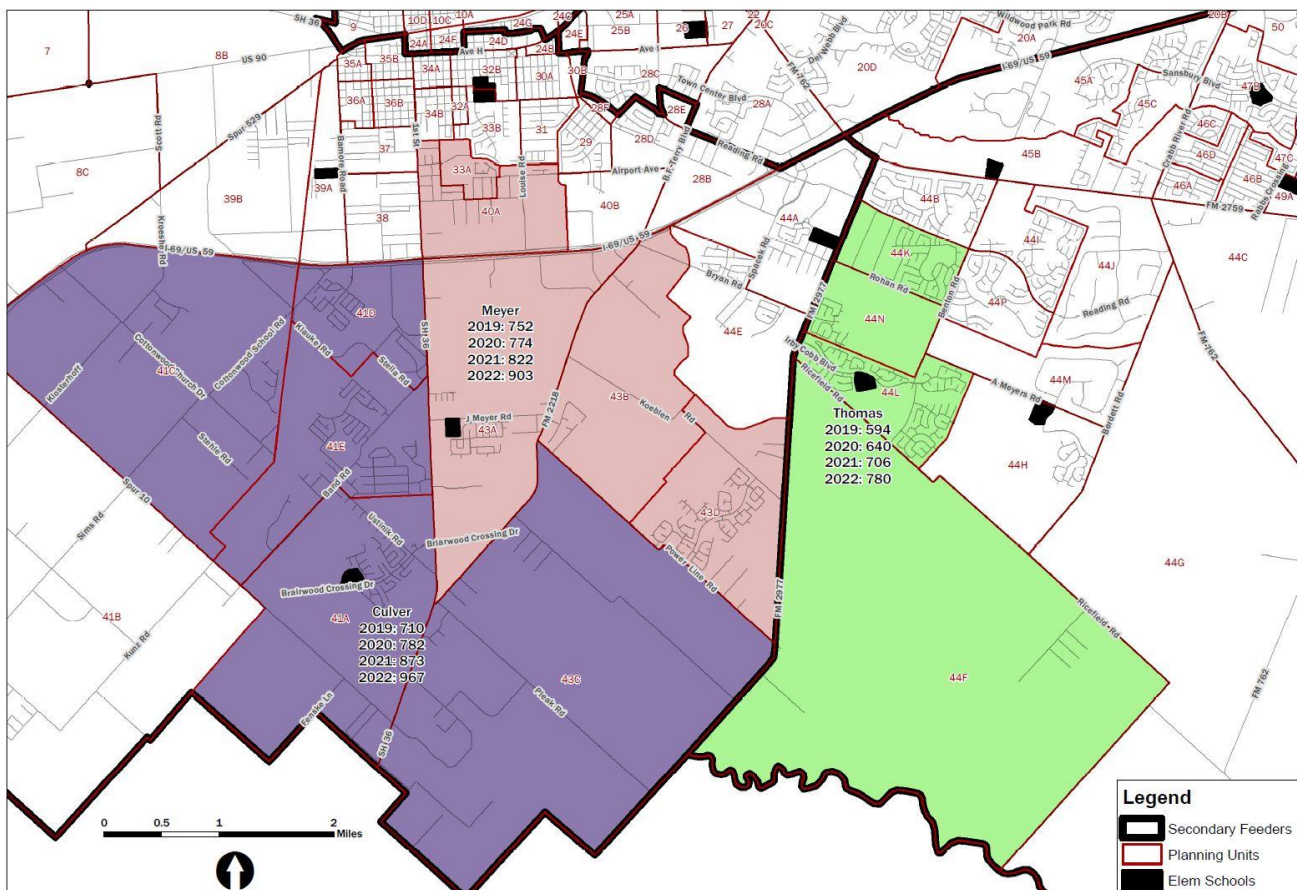

Lamar CISD’s Culver Elementary will open in August 2019. An Attendance Boundary Committee (ABC)—made of community members from the areas under consideration for rezoning—will recommend the attendance zone for Culver Elementary to the Lamar CISD Board of Trustees.

Before making a recommendation, the ABC is seeking input from residents living in the impacted area. A public input meeting will be held Jan. 31 at 6:30 p.m. in the Terry High School Auditorium, located at 5500 Avenue N in Rosenberg.

The public’s input will help the ABC finalize its recommendation to the Board of Trustees. The recommendation will be based on the latest demographic projections, enrollment, facility capacity and the best utilization of existing facilities. The ABC also looked closely at current and projected growth trends, trying to alleviate overcrowding while minimizing the movement of students to new schools.

The ABC has reached consensus on the boundary recommendation shown below, but it could change based on the public’s input.

**ABC Recommendation 1-14-19**
