

# Public Input on Lamar CISD Attendance Boundary Committee Recommendations for Huggins & Morgan Elementary Schools

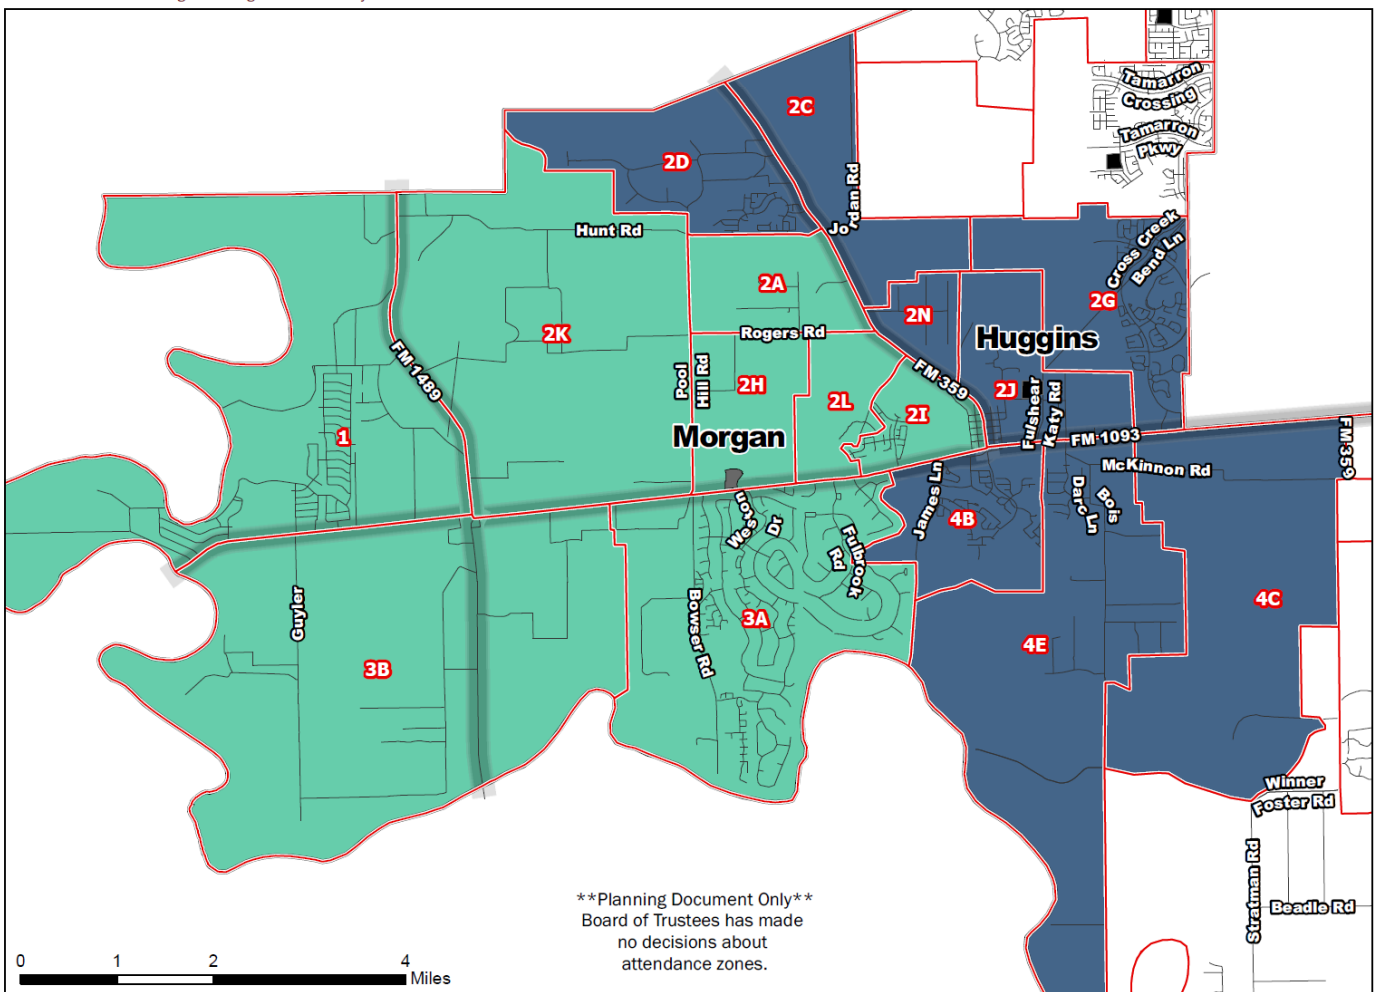

Lamar CISD's Morgan Elementary will open in January 2022. However, the school will function independently on the Huggins Elementary campus during the fall 2021 semester. An Attendance Boundary Committee (ABC)—made of community members from the areas under consideration for rezoning—will recommend the attendance zone for Morgan Elementary to the Lamar CISD Board of Trustees.

Before making a recommendation, the ABC is seeking input from residents living in the impacted area. A public input meeting will be held Jan. 28 at 6:30 p.m. in the Fulshear High School Auditorium, located at 9302 Charger Way in Fulshear.

The public's input will help the ABC finalize its recommendation to the Board of Trustees. The recommendation will be based on the latest demographic projections, enrollment, facility capacity and the best utilization of existing facilities. The ABC also looked closely at current and projected growth trends, trying to alleviate overcrowding while minimizing the movement of students to new schools.

The ABC has reached consensus on the boundary recommendation shown below, but it could change based on the public's input.
