FOR IMMEDIATE RELEASE
Lamar CISD Holds 2025-2030 Strategic Plan Focus Groups and Town Halls

January 24, 2025 - Rosenberg, Texas – Lamar CISD parents, students and community members joined district staff and representatives from JG Consulting for a series of town hall meetings as part of Lamar CISD's 2025-2030 Strategic Planning process.

In cooperation with community members and JG Consulting, Lamar CISD is creating a comprehensive and actionable five-year strategic plan for the next five years. During this past summer, a committee of local stakeholders was formed to collaborate throughout the 2024-2025 school year to help guide the planning process.

The town halls were held at three secondary campuses, including Lamar Consolidated High School, representing the blue and red color tracks; Fulshear High School, representing the purple and gold color tracks; and George Ranch High School, representing the maroon and silver color tracks.

The district also held a series of focus group meetings at the Brazos Crossing administration building to provide additional feedback on the current challenges, goals, and to discuss building a strong future to support the success of the district and those it serves through the [hypergrowth and rapid expansion](#) that is projected to last for the next decade and beyond.

"We appreciate the valuable input from our community, and we're grateful to everyone who took the time to attend the town halls and focus groups and make their voices heard," Lamar CISD Superintendent Dr. Roosevelt Nivens said.

District parents and community members unable to attend the town halls had the option to complete the Lamar CISD Strategic Plan Community Survey online.

"The strategic planning process is incredibly important, and we want to hear from as many of our stakeholders as possible," Dr. Nivens said. "For anyone who couldn't attend the recent meetings in person, our online survey was another great way to participate. This process is crucial to guiding and directing the work of Lamar CISD over the upcoming years, and we can't do it without community participation."
